Description:

Balerna's municipal climatic center is located in the residential complex of the village of Bosco Gurin, near the church. It is composed of 2 buildings:

- la casa Pometta, the main building where are located the kitchen, the refectory and the office;
- la casa Don Bosco, 20 m. from the casa Pometta with 18 beds

They are buildings that suit for schoolchildren, associations, and ski-groups, summer colonies or weekly mountain school
